

Drainology Are Now Fully Equipped With the
Full Range of Air Inflation Machines

We are pleased to announce our recent purchase of a new Medium 600mm Inversion Drum.

With this acquisition the highly skilled and trained Drainology engineers are equipped with the full range of air inflation machines, enabling them to successfully reline a full range of drains from 75mm dia. pipes upwards.

This additional asset further demonstrates Drainology's commitment and ambition for providing the very best in drainage repairs.
