

## May 2008 - Investors in People Award Maintained

INVESTOR IN PEOPLE

Here at **DrainOLOGY** we are proud to announce our success at retaining the prestigious *Investors in People* award.

The company was first awarded the award in 2005 and after completing our three year review, we have been recognised as 'continuing to meet the requirements of the national standard for effective Investment in People'.

Maintaining this award demonstrates the continued commitment, time and money that we have invested in both our staff and their skills. This has resulted in highly skilled and highly motivated employees, whilst also ensuring that our customers receive the very best possible service.

**DrainOLOGY** is one of only a few drainage companies in the South West to have received this prestigious award.
