

How Good Are We Really?

2010/2011 Customer Satisfaction Questionnaire Stats

To ensure we provide the highest possible quality of customer service, we like to gain feedback on all aspects of our work through customer satisfaction questionnaires.

By collating all of the completed questionnaires returned by our customers between 1st April 2010 and 31st March 2011 we have extracted the following statistics, which we are extremely proud to publish:

- **100%** reported that the punctuality, reliability, demeanour and politeness of our survey engineers met or exceeded their expectations.
- **100%** commented that our reports contained **exactly** the right amount of information.
- **87%** of our customers said that our survey reports were 'clear (or very clear) & easy to read', rather than just being 'average'.
