

## March 2011 - CHAS Accredited

We are pleased to announce that for the sixth year running we have been re-accredited with CHAS (Contractors' Health and Safety Assessment Scheme). The annual review ensures that all the companies registered and accredited by CHAS continue to fulfil the stringent criteria necessary to qualify.

Holding this accreditation proves that as a company we continue to implement and maintain the very highest health & safety standards; making sure our sites are a safe place for both our staff and our customers.
