

October 2008 - CHAS Accredited

For the fourth year running, we are pleased to announce that we have remained CHAS accredited (Contractors Health and Safety Assessment Scheme). The annual review ensures that all the companies registered and accredited by CHAS continue to fulfil all the criteria necessary to qualify.

This proves that as a company we continue to implement and maintain the very highest health & safety standards; making sure our sites are a safe place for both our staff and our customers.
